

## TechRider and Lightplan Bouncing Act

### Tech Rider „Bouncing“

For the act we need a minimum unobstructed space of 3x3x3 meters. Also smaller stages possible upon consultations. We provide our audio track in form of USB, Laptop and CD. There is no microphone needed. We need 1-3 stage hands for the setup and after the act.

### Setup:

Before the act:

Requisites that need to be brought on stage are two chairs and one suitcase. The chairs will be positioned in the center of the stage next to each other with a distance of 50 cm. The suitcase will be positioned 30cm from the left chair (view from stage to audience).

After the Act:

Chairs and suitcase are in the same position as before the act and need to be taken offstage.

### Lightplan „Bouncing“:

time:	action:	light:
00:00-00:05	B. and M. walk on stage and sit down on the chairs  M. and B. reading newspaper, while sitting on the chairs	black  juggling light 70%, central warm white light and some blue light. Not dazzling, blue backgroundlight if possible.
00:05-05:11	Main Showact Bouncing Juggling using 3x3x3 meters of the stage	juggling light 70 % airspace above B. and M., warm white light, not dazzling, also white light from behind and the sides possible, blue Background light if possible.
05:11	M. und B. sit on the chairs again	black
after 2-5 seconds	Bow	warm white light

If there are any further questions feel free to ask.
